Resume

A professional currently pursuing a Bachelor's degree in Systems Engineering, with over 3 years of experience in mobile and full-stack development, specializing in Flutter, Vue.js, Ionic, and Laravel. Skilled in state management patterns like BLoC, Cubit, Riverpod, MobX, and experienced in building RESTful APIs. Strong background delivering high-quality apps to production for diverse sectors, including travel management, video streaming, and enterprise solutions.

As a technology professional, I am continuously engaged in learning, which enhances my ability to bring value to teams. I am passionate about solving real-world problems with technology, collaborating in Agile environments, and delivering scalable, maintainable, and user-focused applications.

Work History

Full Stack Developer

Anykrowd, Remote – March 2025 – Present

International company focused on event management and digital experiences.

- Develop and maintain front-end with Vue.js and Ionic, and back-end services using Laravel.
- Integrate APIs and manage state to ensure cohesive UX.
- Deliver high-quality, integrated applications.
- Collaborate with cross-functional teams to enhance product features.
- Optimize performance and code quality.

Technologies and tools: Vue.js, Ionic, Laravel, PHP, JavaScript, REST APIs

Mobile Developer

Onfly, Remote – April 2024 – February 2025

Brazilian travel and expense management platform.

- Developed and maintained Flutter-based app with new features and optimizations.
- Applied MobX, GetIt, and GetX for effective state management.
- Resolved bugs to ensure stability and performance.
- Collaborated with teams for delivery of new features.
- Followed best practices to improve app quality.

Technologies and tools: Flutter, Dart, MobX, GetIt, GetX, REST APIs

Mobile Engineer

Itsy, Remote – June 2023 – July 2024

International startup for video streaming and social media.

- Enhanced app with new features and bug fixes.
- Used Riverpod for state management.
- Worked in a multinational, fully remote team.
- Ensured quality and performance improvements.
- Contributed to evolving product roadmap.

Technologies and tools: Flutter, Dart, Riverpod, REST APIs

Mobile Developer

Prime Results, Hybrid – September 2021 – October 2023

Brazilian consultancy delivering custom digital solutions.

- Led development of over 10 mobile apps with Flutter.
- Managed entire lifecycle from concept to deployment.
- Used Git and GitHub for version control.
- Standardized builds with flavors and CI practices.
- Collaborated in Agile teams to deliver maintainable solutions.

Technologies and tools: Flutter, Dart, Git, GitHub, REST APIs
